

VapeGuard – Product Information & Instructions

Silicone Vape Tank Protector Sleeve (Glass Protection Accessory)

Product Description

VapeGuard is a flexible silicone protective sleeve designed to help protect the glass section of your vape tank from everyday knocks, bumps and drops.

What's Included

1 x VapeGuard silicone protective sleeve (colour selected).

Compatibility

Fits most vape tanks with a glass diameter between **20mm and 45mm**. Suitable for straight or bubble glass sections where the sleeve can sit securely.

How to Fit

- Ensure your vape tank is clean and dry.
- Hold the VapeGuard sleeve with both hands.
- Stretch the sleeve gently and slide it over the glass section of the tank.
- Position it so it sits flat and evenly around the glass.
- Check the sleeve does not interfere with airflow slots, threads, or moving parts.

Use Tips

- Make sure the sleeve does not cover any adjustment rings you need to access.
- For best performance, keep the sleeve centred on the glass section.
- Replace if torn, overstretched, or damaged.

Material & Performance

- Durable silicone construction.
- Heat resistant up to **250°C**.
- Designed to absorb impact and reduce risk of glass cracking in many common drops.

Safety Information

- Keep out of reach of children and pets.
- Not a toy.
- Do not use if damaged.
- Do not use on cracked or broken glass.

Important Compliance Note

This product is a **protective accessory only** and contains **no batteries, liquids, nicotine, electronics, or heating elements**.
